38-48

SOUND, DBA

PERFORMANCE BUILT AROUND YOUR APPLICATION

All models: 110-120 VAC | 60 Hz

QUALITY

Fuji Electric brings decades of engineering experience to every air pump. FP and FPX models are designed for stable airflow, dependable pressure, and quiet operation.

CONSTRUCTION

A linear diaphragm system sits at the heart of each pump, engineered for dependable air delivery across a broad range of operating requirements.

SERVICEABILITY

Model-specific maintenance kits include a replacement diaphragm set and three filters, simplifying routine service and supporting continued performance.

Part Number	Pressure (kPa)	Airflow (LPM)	Sounds (dBA)	Amps (A)	Watts (W)
FP40	12.7	40	38	0.4	30
FP60	14.7	60	39	0.5	45
FP90	14.7	90	44	0.7	62
FPX80	17.6	83	46	1.1	71
FPX100	17.6	100	48	1.4	94
FPX120	19.6	130	46	1.5	118
FPX150	19.6	150	46	2.1	134
FPX200	19.6	200	47	3.2	190
